December 3, 2018

To: San Simeon residents and San Simeon CSD Water Customers

From: Charles Grace, General Manager, San Simeon CSD

**Re: Effective Immediately - Stage One (1) Water Restrictions no longer in effect.**

---

Given the recent amount of rainfall that our community has received, the San Simeon Community Services District (SSCSD) is removing the Stage 1 Water Restrictions that went into effect on July 26, 2018.

What does this mean? It means that, outdoor watering with potable water is permissible as well as potable water use for washing automobiles. Please refer to Ordinance 117 found on the District's website for more detailed information.

However, please remember that State and Local rainfall levels still remain below average. District staff will continue to diligently monitor creek flow, aquifer levels and chloride concentrations. Staff will swiftly inform the community when conservation measures need to be re-implemented.

**Thank you for your effort toward maintaining a sustainable water resource for all of San Simeon.**
